Literature Review
AI-Assisted Situated Storytelling Systems
SOR Model and Cognitive Appraisal Theory
Six Perceived Attributes
content · expression · interaction
Develop Research Hypotheses (H1–H15) and Model
Research Case
GeoDrama, historic urban Nanjing
Questionnaire Design
27 items · 9 constructs
On-site Walking Experience
approx. 10–15 min
Data Collection
valid N = 548
SPSS 27.0 + AMOS 27.0
Measurement Model Evaluation
CFA: reliability and validity
Structural Model Analysis
SEM: H1–H14
Alternative Models and Mediation Effects
SEM–ANN Analysis
ten-fold cross-validation
Results & Discussion
